

INDUSTRIAL ROLLING CARTS

MULTIPURPOSE INDUSTRIAL ROLLING CARTS

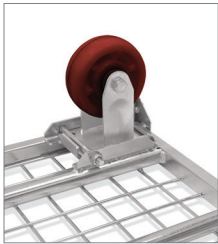

Industrial Rolling Carts

Worldwide Material Handling's industrial rolling carts are perfect for retail and commercial applications. They provide a safer alternative to hand trucks, pushcarts or pallet jacks when picking orders in the warehouse and replenishing shelves on the sales floor.

FEATURES AND BENEFITS:

- › Tubular frame, wire mesh construction
- › Precision-welded 2" x 2" wire mesh pattern
- › Knockdown design (no tools required)
- › 5" x 2" poly casters — (2) swivel with brake and (2) rigid
- › High-quality galvanized finish
- › Custom designs and colors available

Standard caster pad design for easy assembly and maintenance

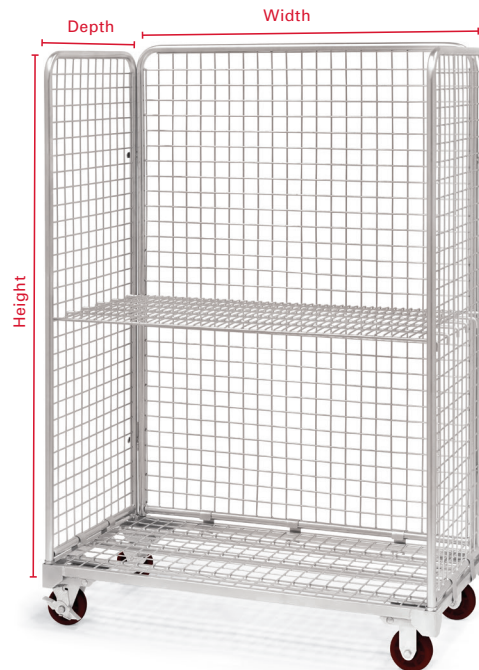

Quick clip design assembles without tools

Folding latch securely closes cart (padlock not included)

Full-length locking mechanism
